PRISMA ENGINEERING

Civil and industrial engineering and design company

Company Profile

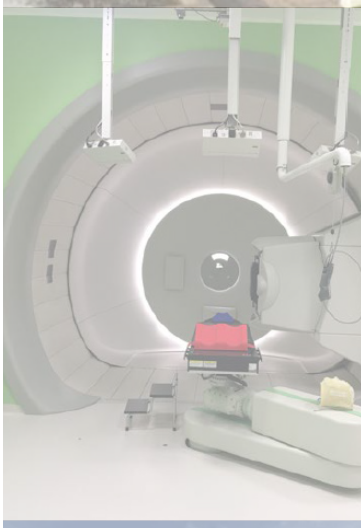

PRISMA ENGINEERING s.r.l. is an engineering company which for forty years has been engaged in design and construction management of major facilities in Italy and abroad. We operate in the fields of congress and executive facilities, hospitality, health and hospital facilities, research laboratories, clean rooms and nuclear facilities. The design is multidisciplinary, involves Civil and MEP Engineering and applies the most recent technological systems. We also carry out ambitious projects in the energy related fields, in collaboration with relevant players of the market. Experience, Innovation and Sustainability always guaranteed.
Human capital is the value on which our corporate culture is based. People, with their diversity, continue to bring development and knowledge. We have a dynamic, vibrant, multidisciplinary team to whom we offer professional growth and specific training. We look at commitment and work performance but also at well-being of the team, dialoguing in order to live well at work as welll

One partner, an established multidisciplinary experience

One of our main strengths is a **multidisciplinary team** which enables the company to offer a complete service and project control. The Team is made up of Architects, Landscape Architects, Structural Engineers, Civil Engineers, Mechanical Engineers, Electrical Engineers, Surveyors, Industrial Experts, IT and Automation Specialists, Safety and FSE Specialists, BIM Specialists, Technicians with expertise in acoustics, Supply and Shipping Management Specialists, and Project Management.

Services

- Architectural and structural design
- Mechanical engineering
- Electrical and special systems engineering
- Construction supervision
- Safety and fire safety engineering
- IT and automation
- Environment and energy aspects
- Project and construction management
- Turnkey projects
- Specialist consultancies

Area of expertise

HEALTHCARE AND RESEARCH
Hospital complexes, diagnostics and operating departments, analysis laboratories, clean rooms and outpatient clinics

INDUSTRIAL
Production facilities, industrial processes

COMMERCIAL AND EXECUTIVE
High rise buildings, offices, convention and shopping centers, showrooms

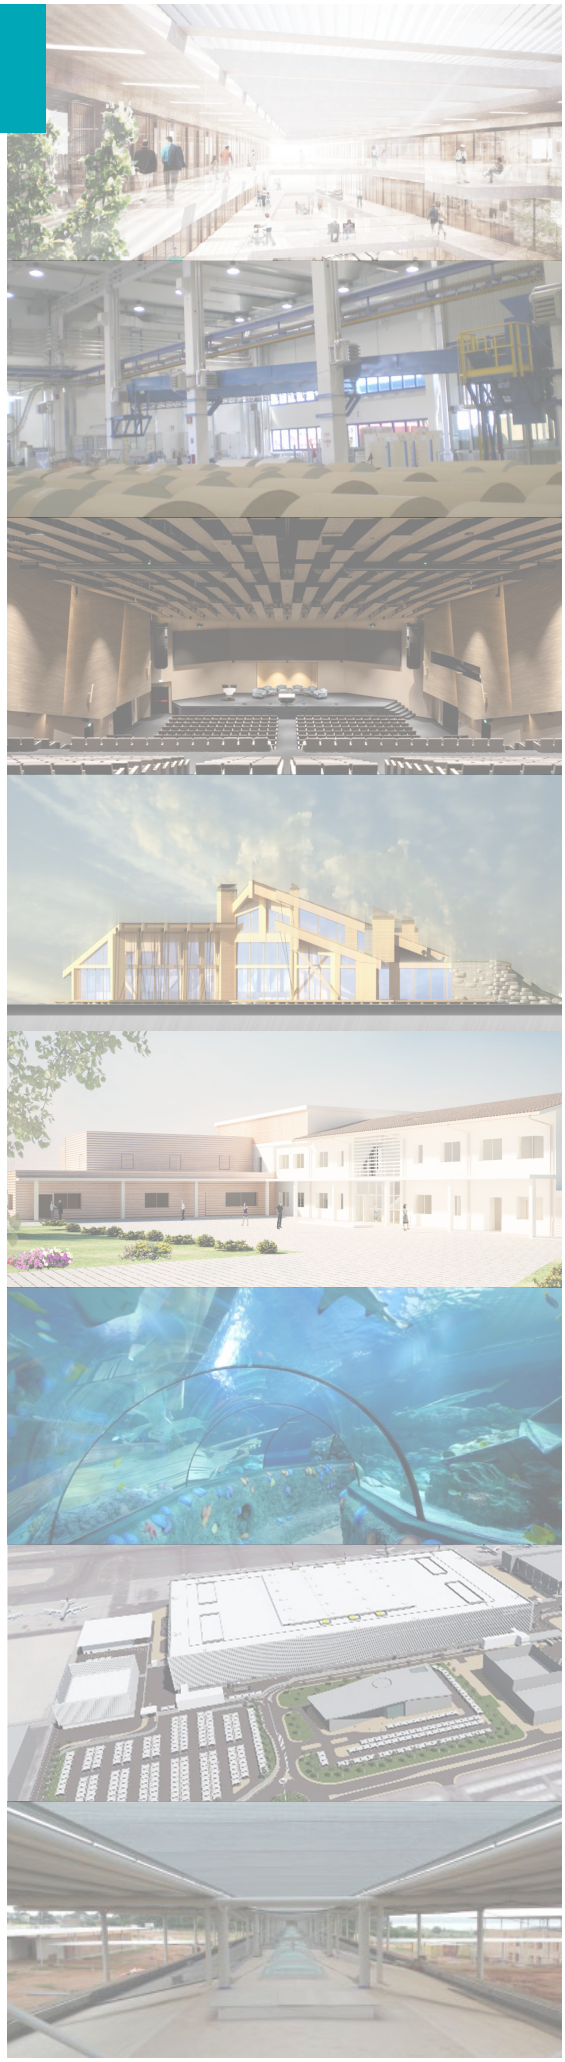

RESIDENTIAL AND TOURISM
Residential and luxury buildings, hotels, tourist facilities, refurbishment of historic buildings

EDUCATIONAL
Public cultural buildings, school and university buildings

LEISURE
Cinemas, theme parks, sports centers and museums

AIRPORT FACILITIES
Maintenance hangars and ground services

ENERGY
Energy efficiency and sustainability studies, use of renewable energy sources, upgrading, certification and energy diagnosis of buildings, research and innovation

Policy

PRISMA ENGINEERING SRL is committed to constantly pursue and spread the objectives of continuous improvement in the fields of Quality, Environment, Occupational Health and Safety, as an integral part of its business and as a strategic commitment related to the more general purposes of the Company, always considering internal and external factors, stakeholders, risks and opportunities.

PRISMA ENGINEERING SRL has always been committed to the pursuit of business goals, founding itself on full awareness of the centrality of the human factor, in every activity of its organization

Management is committed to:

1. Strictly comply with the legislation applicable to the products/services provided, as well as the requirements that the company has voluntarily signed up to.

2. Constantly promote actions and activities, in order to bring continuous improvement, with regard to environmental quality and occupational health and safety aspects.

3. Ensure safe and healthy working conditions that enable the prevention of occupational injuries and illnesses.

4. Ensure, with consistent proactivity over time, the prevention of pollution and environmental impact deriving from company processes and products, considering where possible a life-cycle perspective.

5. Eliminate sources of danger and reduce occupational health and safety risks, in line with the ever evolving technical and economic possibilities.

6. Maintain conditions that allow systematic consultation and, where applicable, participation, of workers and outsourcers in improving the performance of the organization and its integrated management system

7. Ensure that all workers share and are aware of the Company's goals and the responsibilities that each of them has in ensuring their achievement.

8. Promote staff motivation at all levels through means of regular meetings describing the company's strategy and the goals achieved.

9. Monitor planned improvement goals, evaluate the effectiveness of actions taken, assess any deviations, and take timely corrective actions to reduce potential risks to the organization

10. Ensure excellence level of the product, the work and the service provided to customer, ensuring technological innovation with an eye always on customer needs and satisfaction, with periodic assessments in order to monitor and implement any actions necessary for improvement.

11. To achieve ever-increasing competitiveness in order to gain significant market share through improved efficiency and internal cost control.

Certifications

In always wanting to improve, we have achieved the following certifications: ISO 9001 (since July 2001), subsequently updated to ISO 9001:2008 and **ISO 9001:2015**; **ISO 14001:2015** in 2018; **ISO 45001:2018** in 2020. Prisma Engineering also achieved **UNI/PdR 125:2022** certification for gender equality in 2024 and the **ISO 13485:2016** for design of medical gas distribution systems (MGDS) in 2026.

New Nuclear Medicine Department at P.O. Nuovo Ospedale Apuano (MS)

Client: AZIENDA USL TOSCANA NORD OVEST
Location: Massa, Italy
Period: 2024 - 2025
Activities: Technical and Economic Feasibility Study

Services aimed at providing PET/CT diagnostic services delivered by the Nuclear Medicine Unit (UOC) of the Livorno Hospital (P.O. di Livorno)

Client: FORA S.p.A.
Location: Livorno, Italy
Period: 2024 Design - WS ongoing
Activities: Executive design of civil works, mechanical and fire protection systems, electrical systems. Works Supervision and CSE

Extension of Building I with installation of a Biomodule for animal housing on the ground floor of Building G in the Via Orus complex

Client: VIMM Venetian Institute of Molecular Medicine
Location: Padova, Italy
Period: 2023 – ongoing
Activities: Technical and economic feasibility study, safety coordination during final and executive phase, Works supervision

Works Supervision and Safety Coordination for the New Radiotherapy IOV at San Giacomo Hospital in Castelfranco Veneto (TV)

Client: IOV Istituto Oncologico Veneto
Location: Castelfranco Veneto (TV), Italy
Period: 2023 – ongoing
Activities: Works Supervision and Safety Coordination during Execution Phase

Cryogenic room for Biobank at the Pietro d'Abano Biomedical Campus in Via Orus (PD)

Client: Azienda Ospedale - Università Padova
Location: Padova, Italy
Period: 2022 – 2025
Activities: Final design, executive design, CSP and CSE

Construction of the animal facility serving the School of Pharmacy and Nutraceutics of Catanzaro

Client: University "Magna Graecia" of Catanzaro
Location: Catanzaro, Italy
Period: 2021 – 2024
Activities: Final and executive design of civil works, structures, mechanical, fire protection and electrical systems, Safety coordination during design phase

Works for the safety upgrading of existing premises for the preparation of radiopharmaceuticals according to NBP-MN – Basement – Building 15

Client: Careggi University Hospital
Location: Firenze, Italy
Period: 2021 – 2023
Activities: Executive design

Completion and activation of GMP laboratories for the establishment of the Diabetes Cell Therapy Center at Building C – Pietro d'Abano Biomedical Campus (Via Orus, PD)

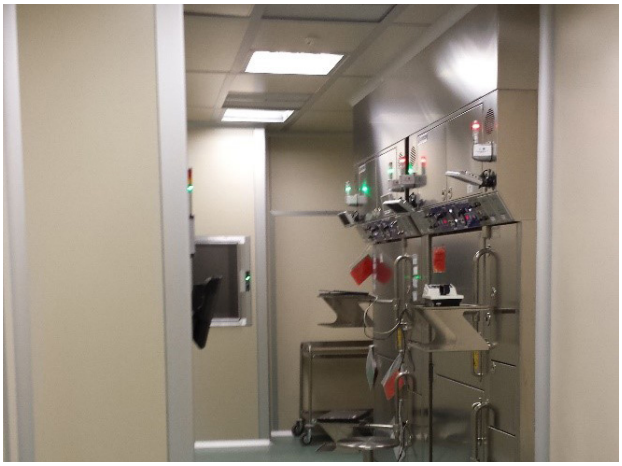

Client: Azienda Ospedaliera di Padova
Location: Padova, Italy
Period: 2021 – 2023
Activities: Executive design of civil works, electrical and mechanical systems, Works Supervision and Safety Coordination during Design and Execution phases

New Radiotherapy IOV at "San Giacomo" Hospital in Castelfranco Veneto (TV)

Client: Istituto Oncologico Veneto IRCCS
Location: Castelfranco Veneto (TV), Italy
Period: 2020 – 2022
Activities: Final design of civil, structural and architectural works, mechanical and electrical systems

Modifications of cleanroom for relocation of cells

Client: COMECER S.p.A.
Location: Casarano (LE), Italy
Period: 2020
Activities: Final and executive design of civil works, mechanical and electrical systems, Works Supervision and Safety Coordination

Radiopharmacy laboratory at S. Cataldo Hospital CNR – Pisa

Client: Fondazione Toscana G. Monasterio
Location: Pisa, Italy
Period: 2019 – 2023
Activities: Executive design of civil and structural works, mechanical and electrical systems. Safety Coordination during design phase. Execution of works

Supply and installation of prefabricated clean-room-type structures for the UCX laboratories of the SPES project at the I.N.F.N.'s National Laboratories in Legnaro

Client: INFN – Legnaro National Laboratory
Location: Legnaro (PD), Italy
Period: 2018 – 2021
Activities: Executive design of civil works, Works Supervision and accounting

Renovation of premises used by CNR - Institute of Neuroscience (IN) in the University of Milan building at Via Vanvitelli 32, Milan

Client: CNR - Consiglio Nazionale delle Ricerche, Milano
Location: Milano, Italy
Period: 2018
Activities: Executive design

Upgrading of research infrastructure at the GMP Facility, research laboratories, and diagnostic and therapeutic services at IRCCS ISMETT (Mediterranean Institute for Transplants and Highly Specialized Therapies). Class B GMP Laboratory

Client: IRCCS ISMETT
Location: Palermo, Italia
Period: 2017 – 2019 (Design), 2019 – 2021 (WS)
Activities: Final and executive design of civil works, mechanical and electrical systems, fire prevention, Works Supervision

Upgrade of the Radiochemistry Laboratory following the relocation of existing cells and installation of new cells at I.E.O. European Institute of Oncology – Milan

Client: COMECER S.p.A.
Location: Milano, Italy
Period: 2017 – 2018
Activities: Construction of civil works and mechanical and electrical systems

Supply and installation of a facility (compound) for the handling and characterization of radionuclides for medical applications as part of the LARAMED project at the National Institute of Nuclear Physics, Legnaro National Laboratories (PD)

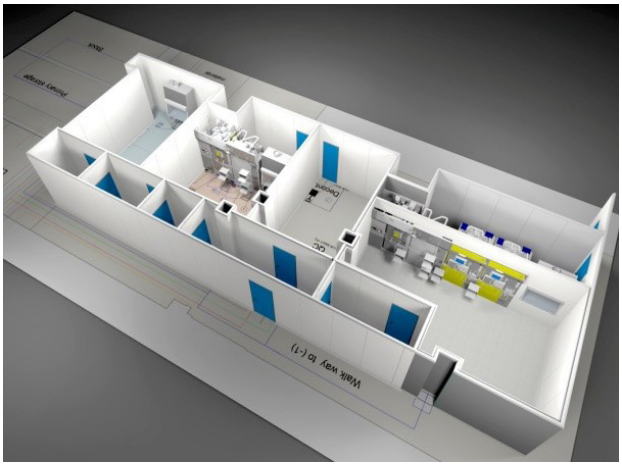

Client: National Institute of Nuclear Physics, Legnaro National Laboratory
Location: Legnaro (PD), Italia
Period: 2017 – 2018
Activities: Executive design. Works Execution.

Executive design of a variant for the installation of a new 3T magnetic resonance imaging system in the “Ex Infectious Diseases Pavilion” of San Gerardo Hospital, Monza

Client: Università degli Studi di Milano Bicocca
Location: Monza, Italy
Period: 2017
Activities: Executive design of civil works, mechanical and electrical systems

Design and construction of 4 GMP radiopharmaceutical laboratories at Universitair Ziekenhuis – Brussels

Client: COMECER
Location: Bruxelles, Belgium
Period: 2016 – 2019
Activities: Final and executive design of architectural and structural works, mechanical and electrical systems, Works Supervision

Design and construction of a Radiotherapy building at Monselice Hospital (PD) with 5 bunkers for accelerators, tomotherapy, and CT

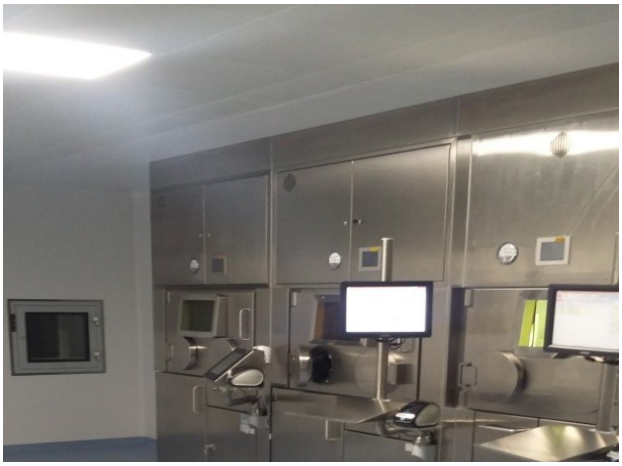

Client: ULSS N.6 EUGANEA (ex ULSS N.17)
Location: Monselice (PD), Italy
Period: 2016 – 2018
Activities: Final and executive design of civil works, mechanical and electrical systems

Mobile clean room for the decommissioning of radioactive nuclear waste at Area 40, JRC in Ispra

Client: European Commission - JRC Joint Research Centre
Location: Ispra (VA), Italia
Period: 2015 – 2025
Activities: Preliminary, final and executive design of civil and structural works, mechanical and electrical systems, Works Supervision

Design and construction of a radiopharmacy laboratory at San Bortolo Hospital, Vicenza

Client: ULSS N. 6 VICENZA
Location: Vicenza, Italy
Period: 2015 – 2018
Activities: Final and executive architectural, structural and civil works design, electrical and mechanical systems. Construction ongoing

Radiopharmaceutical preparation unit for oncology treatments at Piove di Sacco Hospital (PD)

Client: ULSS N. 16 PADOVA
Location: Piove di Sacco (PD), Italy
Period: 2015 – 2016
Activities: Executive design of architectural, civil and structural works, mechanical and electrical systems, equipment layout, cleanroom and Safety Coordination during design. Site supervision and testing

Design of civil works and electrical and mechanical systems for the expansion of the galenic preparation laboratory within Farmacia Campedello

Client: Farmacia Campedello
Location: Vicenza, Italy
Period: 2015 – 2016
Activities: Final and executive design

Design and construction of a cleanroom with adjacent warehouses for the assembly of composite glass panels

Client: Viraver Technology Srl
Location: San Pietro Viminario (PD), Italy
Period: 2015 – 2016
Activities: Preliminary, final, and executive design. Works supervision and Execution.

New barriered animal facility, ground floor, Building F, Via Orus, Padua

Client: Università degli Studi di Padova
Location: Padova, Italy
Period: 2015
Activities: Final and executive design of civil and structural works, electrical and mechanical systems. Works Supervision

Design of a new animal facility of approximately 300 m² on the 4th floor of Building B of the real estate complex known as “ex Regina Elena” – La Sapienza University, Rome

Client: Università La Sapienza di Roma
Location: Roma, Italy
Period: 2015
Activities: Executive design of civil works, mechanical and electrical systems

New territorial headquarters of the Istituto Zooprofilattico Sperimentale delle Venezie in Buttapietra (VR) with laboratories and BLS3 cleanroom

Client: Bilfinger Sielv Facility Management Srl
Location: Buttapietra (VR), Italy
Period: 2014 – 2016
Activities: Final and executive design of civil and structural works, plumbing, mechanical and electrical systems, equipment layout

Design of a medium-voltage power distribution network serving the process systems of the NBTF "Neutral Beam Test Facility" – RFX Consortium, CNR in Padova

Client: RFX Consortium
Location: Padova, Italy
Period: 2014 - 2016
Activities: Executive design

Acquisition of a new 0.4T Magnetic Resonance Imaging system and construction of a new reporting area – first phase

Client: ULSS 3 Bassano del Grappa
Location: Bassano del Grappa (VI), Italy
Period: 2014
Activities: Executive design of mechanical, electrical and special systems

New animal facility, ground floor, Building F, Via Orus, Padua

Client: VIMM; Università degli Studi di Padova; Azienda Ospedaliera di Padova
Location: Padova, Italy
Period: 2013 - 2015
Activities: Works Supervision and Safety Coordination

Design of a cooling system for the Mitica and Spider experiments at the PRIMA site within the RFX Consortium (CNR in Padovaa). The experimental facility will be operated under the patronage of the European Fusion for Energy project

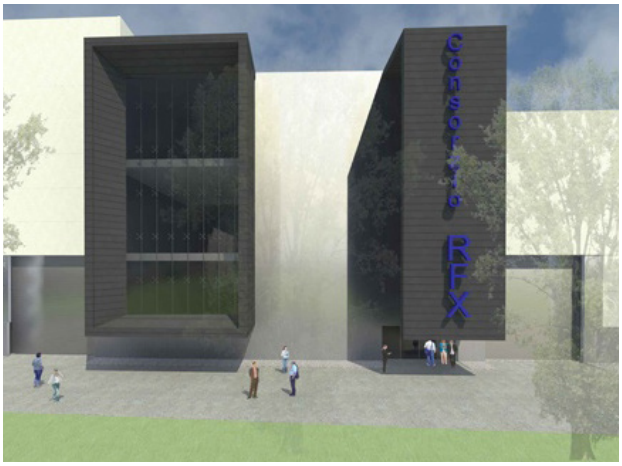

Client: Delta-Ti Impianti S.p.A.
Location: Padova, Italy
Period: 2012 – 2016
Activities: Concept executive, detailed and construction design

Completion of the Cell Factory laboratories at the Advanced Biomedical Research Foundation, Via Orus 2, Padovaa

Client: Azienda Ospedaliera di Padova – Università degli Studi di Padova – VIMM
Location: Padova, Italy
Period: 2012 - 2014
Activities: Final design, executive design. 600 m² GMP clean room

Neutral Beam Test Facility for the RFX Consortium at the CNR in Padua

Client: RFX Consortium
Location: Padova, Italy
Period: 2012
Activities: Assistance to the mechanical and electical Works Supervisor

Engineering design for the construction of the “New Building” at “Zambon Farmaceutica” headquarters — Via della Chimica 9, Vicenza

Client: Zambon Farmaceutica S.p.A.
Location: Vicenza, Italy
Period: 2011 - 2014
Activities: Executive design of mechanical and electrical systems

Architectural and systems design for a new university building to be used as an Animal Facility with BLS3 laboratories at the Biomedical Chemistry Campus of the University of Ferrara

Client: Università degli Studi di Ferrara
Location: Ferrara, Italy
Period: 2011 – 2012 progettazione, 2012 - 2015 DO
Activities: Final and executive design, operational management, Safety Coordination during execution

Cell Factory laboratories (B GMP Class and BLS3 C GMP Class) within the "Fondazione Ricerca Biomedica Avanzata" research center, Via Orus, Padua

Client: Università degli Studi di Padova, Azienda Ospedaliera di Padova, VIMM Venetian Institute of Molecular Medicine
Location: Padova, Italy
Period: 2011 - 2012
Activities: Final and executive architectural design, civil works, and electrical and mechanical systems. Works Supervision

Renovation and adaptation of spaces in the "Ex Infectious Diseases Pavilion" at San Gerardo Hospital, Monza, including the construction of new nuclear medicine laboratories, cleanroom, and animal facility on the second basement floor

Client: Università degli Studi di Milano - Bicocca
Location: Monza, Italy
Period: 2010 – 2012 design, 2012 - 2018 WS
Activities: Final design of civil works, electrical and mechanical systems. Works Supervision, accounting

New Antiblastic Drug Preparation Pharmacy at Busonera Hospital, Padua

Client: I.O.V. Istituto Oncologico Veneto di Padova
Location: Padova, Italy
Period: 2010 - 2011
Activities: Final design of architectural and civil works, electrical and mechanical systems, construction supervision

Upgrade works for the new Core Lab at Reggio Emilia Hospital

Client: Azienda Ospedaliera di Reggio Emilia
Location: Reggio Emilia, Italy
Period: 2010, 2012 - 2013
Activities: Final and executive design of civil works and systems

Nanotechnology Laboratories. Construction of the Air treatment system for the machine known as “Nanofabia” and the ISO 7 auxiliary laboratories at the Venice facility

Client: C.I.V.E.N. Coordinamento Interuniversitario Veneto per le Nanotecnologie
Location: Venezia, Italia
Period: 2010
Activities: Executive design and works supervision

Project for a new operating block, new ICU, new radiology, new emergency department, and new entrances at Feltre Hospital. 2,000 m², ISO 7 and ISO 5

Client: ULSS n. 2 di Feltre
Location: Feltre (BL), Italy
Period: 2009 - 2011
Activities: Final and executive design of civil, structural works, and mechanical and electrical systems

New Single Acute Care Hospital – ULSS N.17. The hospital consists of three buildings, each housing various departments: analysis laboratories, radiology, outpatient clinics, inpatient wards, and operating rooms

Client: ULSS n. 17 di Monselice – Este (PD)
Location: Monselice (PD), Italy
Period: 2009 - 2010
Activities: Executive design of electrical systems

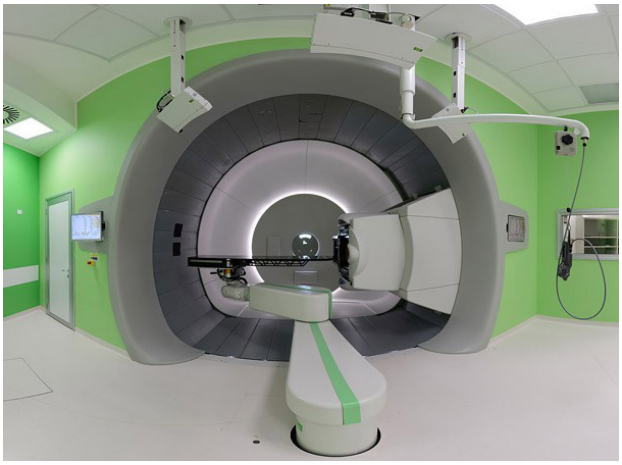

Design of the new operating block at Noventa Vicentina Hospital

Client: ULSS n. 6 di Vicenza
Location: Noventa Vicentina (VI), Italy
Period: 2009
Activities: Final and executive design of civil, structural works, plumbing, mechanical, and electrical systems

Mechanical systems design for the new Proton Therapy Center in the Province of Trento, a highly specialized facility applying the latest technologies for cancer treatment with PET, MRI, outpatient clinics, and day hospital. ISO 7

Client: Hydrostudio Consulting Engineering Srl
Location: Trento, Italy
Period: 2008 – 2010
Activities: Final and executive design of mechanical systems

New Neutral Beam Test Facility (NBTF) complex - European Fusion for Energy project. Facilities for experiments Mitica and Spider, with complex research functions.

Client: RFX Consortium
Location: Padova, Italy
Period: 2008 - 2010
Activities: Preliminary, final, and executive design of electrical, plumbing, and mechanical systems

New cyclotron, radiopharmaceutical production unit, and PET department at Tripoli Medical Center, Libya. Class B

Client: TMC per conto di Al Usool Al Aqariya for General Contracting Co.
Location: Tripoli, Libya
Period: 2008 - 2009
Activities: Preliminary, final, and executive design of civil and structural works, electrical, plumbing, and mechanical systems, and Works Supervision

Microfabrication Laboratories. Expansion work on the Class 10 cleanroom in the East Building at the Povo di Trento campus of the Bruno Kessler Foundation

Client: Bruno Kessler Foundation
Location: Povo di Trento (TN), Italia
Period: 2008 - 2009
Activities: Preliminary and final design of civil works and facilities; assistance to the Works Supervisor

Completion of the Cell Factory laboratories at the Advanced Biomedical Research Foundation, Via Orus 2, Padua

Client: Azienda Ospedaliera di Padova – Università degli Studi di Padova – VIMM
Location: Padova, Italy
Period: 2008
Activities: Final design, executive design. 600 m² GMP clean room

Design for new operating rooms at the Istituto Oncologico Veneto – IOV. ISO 5

Client: Gruppo SAE S.p.A per l'Azienda Ospedaliera di Padova
Location: Padova, Italy
Period: 2007
Activities: Executive design of architectural and civil works, electrical and mechanical systems

Clean Room for the silver coating of ISO-class telescope mirrors in the Observatory in Arcetri

Client: National Institute of Astrophysics, Arcetri Observatory
Location: Arcetri (FI), Italia
Period: 2007
Activities: Design and Works Supervision

Design of new pharmacy premises for the preparation of antineoplastic drugs at the Veneto Oncology Institute (IOV). ISO 7

Client: Gruppo SAE S.p.A per l'Azienda Ospedaliera di Padova
Location: Padova, Italy
Period: 2007
Activities: Executive architectural design and civil works, electrical and mechanical systems

Cyclotron bunker for the production of isotopes for positron emission tomography; GMP-class cleanroom for the radiopharmaceutical production department at Ospedale S. Gerardo di Monza

Client: Università degli Studi di Milano - Bicocca
Location: Monza, Italy
Period: 2006 - 2007
Activities: Executive design of civil and structural works and systems

Design of Molecular Biology Laboratories: Class B Cell Factory for VIMM (Veneto Institute of Molecular Medicine), formerly "Istituto Zooprofilattico delle Venezie", Via Orus, Padova

Client: Università degli Studi di Padova
Location: Padova, Italy
Period: 2004
Activities: Preliminary, definitive, and executive design

Highly Automated and Sophisticated Provincial Unified Laboratory for Baggiovara Hospital

Client: Beckman Coulter Spa per l'AUSL Modena
Location: Baggiovara (MO), Italy
Period: 2003
Activities: Executive design and construction

New laboratories at Eurand Spa headquarters – ISO 5 clean room, 800 m²

Client: Eurand Spa
Location: Trieste, Italy
Period: 2003
Activities: Plant design and construction supervision

Cleanroom Maintenance at the Legnaro National Laboratories

Client: Istituto Nazionale di Fisica Nucleare di Legnaro
Location: Legnaro (PD), Italia
Period: 2001
Activities: Maintenance

Restoration and regulatory update of buildings B, C, D, E, F within the "Fondazione Ricerca Biomedica Avanzata," Padova

Client: Università degli Studi di Padova
Location: Padova, Italy
Period: 2000 - 2004
